

ECONOMIC IMPACT STATEMENT

K.A.R. 115-30-12. Marine sanitation devices; vessel requirements.

DESCRIPTION: This new permanent regulation would establish provisions and restrictions concerning marine sanitation devices. The proposed regulation would require the use of a department approved locking device on the sewage discharge valve of a marine sanitation device and would make unlawful the removal of such locking device. The proposed regulation would become effective on January, 1, 2008.

FEDERAL MANDATE: None.

ECONOMIC IMPACT: The proposed amendment should not have a significant economic impact on the department, the general public, or other agencies.

ALTERNATIVES CONSIDERED: None.
