

ECONOMIC IMPACT STATEMENT

K.A.R. 115-4-13. Deer permits; descriptions and restrictions.

DESCRIPTION: This permanent regulation establishes types of deer permits offered by the department, and restrictions regarding who may obtain them. The proposed amendments are the result of legislation passed in 2007 by the Legislature. The proposed amendments would allow for a resident any-season white-tailed deer permit, simplify antlerless permits, allow nonresidents to select the season for use of white-tailed deer permits, allow for nonresidents to apply for limited mule deer stamps to convert white-tailed deer permits to either-species, either-sex permits and cease the transferability of hunt-on-your-own-land permits.

FEDERAL MANDATE: None.

ECONOMIC IMPACT: By itself, the proposed amendment would not have any economic impact on the public or on other agencies, because this regulation only defines permit types. There will be a minor impact on the department in reformatting the permits themselves but the impact is negligible.

ALTERNATIVES CONSIDERED: None.
